

## Empathy Map

|                      |                                                    |
|----------------------|----------------------------------------------------|
| <b>Date</b>          | 10 JUNE 2016                                       |
| <b>Team ID</b>       | xxxxxx                                             |
| <b>Project Name</b>  | Voice-Based Concept Understanding Analyser (VBCUA) |
| <b>Maximum Marks</b> | 4 Marks                                            |

**Empathy Map** Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution

| SAYS                                                                                                                                                                                                                                                                                                                     | THINKS                                                                                                                                                                                                                                                                                              |
